

SANAULLAH SAEED

FLUTTER APP DEVELOPER

Experienced Mobile Application Developer is adept at designing and developing Android applications for smartphones using Flutter and Android Studio. Proficient in Firebase and Laravel as a backend. Skilled at creating intuitive user experiences

Experience Work

MOBILE APP DEVELOPMENT

2022 / 2023 - Freelance

- Developed the "GCM Portal Mobile App" for GPGC Mansehra. This app connects students, parents, or any related person with the GPGC Mansehra administration for issue reporting and suggestions. Streamlined communication for a better college experience.
- Developed the "Tailor Shop Mobile App" for tailors. This application manages customer records, showcase the latest designs, and offer additional features for their shops. Firebase is backend for this app.
- Developed a comprehensive Campus Management System (FYP) for educational institutes featuring Flutter-based mobile apps for students and teachers and a Laravel backend for administration. This system streamlines essential processes such as attendance, classes, subjects, exams, and finances while generating informative reports for efficient decision-making.

Education

GPGC MANSEHRA

Graduation in Computer Sciences, 2023. Currently, Student in the 8th semester and will graduate in 2023
